Class 100 – Beginning Band  
School District #60 Beginner Band (Group 1)

1<sup>st</sup> year in band  
Aura Lee

Camptown Races and Morning from Peer Gynt

Remarks:

Aura Lee I see you have two parts, A & B. If you are playing part B, I would like to hear it much louder than part A. Make sure you are playing at least two bars in one breath. When you get to 2nd year and on, in band, you will need to play 4 bars in one breath. You can see this problem in bar 9 – everyone start playing 1 bar phrases with a breath between each one. Also, I would like you to look at your soft and loud signs – Get really good at soft, especially

GARAGE BAND  
- Good solid rock beat!  
- Really like the way you  
band members get into the  
music! It's always more fun  
to watch musicians enjoying  
themselves playing.  
Really like the "work shop"  
instruments added to this piece.  
You all played the parts  
perfectly!  
BRAVO!

Epic Battle 3000

Remarks:

- EPIC BATTLE – Excellent preparation with so much attention to mask use (creative!) and bell covers.
- Good work reading your music and counting your rests so well.
  - Try harder to play 2 bars in one breath – you will really need to do this in many pieces – in fact, next year and beyond, you will have to play FOUR BAR PHRASES 😊
  - Good work trying to play softer. Playing soft and being good at playing soft is one of the most important things you can do.
